Mt. Gallant Elementary School

Dear Parents/Guardians,

In our continuing efforts to support the well-being of all our students, teachers will be completing a universal assessment of behavioral health for all students. The assessment consists of a brief rating scale that will be completed by each child's teachers. The universal assessment will help our teachers to understand the needs of all our students and to make effective plans at the grade level, class level, and individual level.

It is important that your child feels that academic learning is their focus at school and that the adults they work with each day are doing all they can to create a safe and supportive environment.

If you would like more information about the universal assessment, please call Dr. Nancy Turner, Director of Behavioral & Mental Health Services at 803-981-1397.

I understand that my child's school, Mt. Gallant Elementary, will be completing a universal assessment of behavioral health to all students. I wish to ***not** have*
